

CONSIDERING AN EQUITY AUDIT FOR YOUR SCHOOL?

Gain **actionable insights** to foster meaningful change.

WHAT IS AN EQUITY AUDIT?

This focused evaluation delivers a qualitative and quantitative analysis of effective implementation of policies and practices associated with fostering diverse, equitable, and inclusive environments for students and staff.

WHY CONSIDER AN EQUITY AUDIT?

Engaging in an Equity Audit is a key first step in unifying school stakeholders around identifying areas of need and forging strategies to build a culture that supports equity, inclusiveness, and belonging.

WHY PARTNER WITH SCHOOLWORKS?

- **We meet your needs.** Before each Equity Audit, SchoolWorks uses input from school stakeholders to select focus areas for the review. This step simplifies the process and ensures that findings meet expectations.
- **We staff Equity Audits with care.** SchoolWorks ensures that Equity Audits are staffed with racially diverse teams of trained and highly qualified educators who regularly engage in equity-focused improvement work.
- **We consider both qualitative and quantitative data.** Evidence collection methods for Equity Audits include document review, surveys, interview/focus groups with stakeholders, and school walk-throughs.

AT A GLANCE

A school-level Equity Audit typically includes 1.5-days of on-site evidence collection by a team of three (3) SchoolWorks reviewers.

Customization

Schools select up to three key questions that determine the focus areas of the review.

Stakeholders

School Leadership
Teachers
Parents/Caretakers
Students (grades 3+)
Community Partners

Evidence Collection Methods

Document Review
Stakeholder Surveys
Interviews and Focus Groups
School Walk-Through

Deliverables

1.5-hour Debrief/Share-Out
8-10-Page Written Report

\$18,000
per school
